Rotunda Rumblings

The long and winding road: Meeting for a voting session for the first time in about eight weeks, the House adopted a long list of bills, including a measure that would restrict payday lenders' rates to 28 percent, down from an average 591 percent, [writes cleveland.com's Laura Hancock](#). House Bill 123 now heads to the Senate, where there are plenty of opportunities for the bill to be altered or to sink.

Payday lender or loan shark? Is there really a difference between those two terms. [Cleveland.com's Eric Heisig has a piece](#) exploring the question, along with some interesting history on the short-term loan.

One step for man, one giant leap for dogkind... [Hancock reports](#) that dogs are one step closer to lawfully accompanying their people to dinner, as long as they're chilling in outdoor restaurant patios. The Ohio Senate passed a measure to allow restaurant owners to choose if they want pups on patios.

Clearing the backlog: In all, the Ohio House on Thursday passed 17 bills, including measures to prohibit hospitals from forcing nurses to work overtime ([House Bill 456](#)) and allow payouts to Ohioans who are wrongfully imprisoned because of withheld evidence ([House Bill 411](#)). House members also concurred with the Senate's changes to an additional 11 bills. Among them: [House Bill 225](#), which aims to help plug 700 orphaned and abandoned oil and gas wells in the state.

Leneghan to challenge OH-12 results: Republican Melanie Leneghan is drawing up paperwork to contest the results of last month's 12th Congressional District primary, claiming Muskingum County elections officials violated Ohio law by opening ballot containers before starting a recount. But an Ohio secretary of state's office spokesman [told cleveland.com's Jeremy Pelzer](#) that "there doesn't appear to be anything improper going on."

More cones of shame could come to Ohio: The House adopted a bill to

give veterinarians continuing education credit for offering free spay and neuter services. House Bill 433 heads to the Senate.

Pay raises ahead: The House also undertook a number of bills that had been adopted by the Senate and contained “emergency clauses,” or time-sensitive provisions. One of those bills was House Bill 292. Two weeks ago the Senate amended the bill to give 11,000 exempt state employees who are not members of unions a 2.75 pay raise to match the raise Ohio’s largest public employees union had negotiated in its collective bargaining agreement. The raise will go into effect, assuming Gov. John Kasich signs it, during the pay period that includes July 1.

Commercial break is over: A month after the barrage of 12th Congressional District primary television ads stopped, a new wave of special-election ads is about to hit the Central Ohio airwaves. The Congressional Leadership Fund, a super PAC with ties to House GOP leadership, has purchased \$165,000 worth of broadcast TV ads between Friday and next Tuesday, according to Medium Buying, a political ad tracker.

Chairman Ryan: House Speaker Ryan Smith used to chair the influential House Finance Committee and has now given that job to Rep. Scott Ryan, a Columbus-area Republican.

A little work, a little play? Since the Ohio House went without a session for roughly eight weeks as a battle over the next speaker dragged on, new Speaker Ryan Smith has a full schedule planned for the chamber for the rest of the month — a time when lawmakers are usually on recess. The House will meet on June 20 and June 27, according to an updated House schedule. Smith said there will be a light committee meeting schedule, if any meet at all.

PEP in their step: PEP Connections, a Cuyahoga County behavioral health program for at-risk youth, will stay afloat for at least another year thanks to an appropriation added to a medical anti-discrimination bill, if Kasich signs off, cleveland.com's Jackie Borchardt reports. The program faced a funding cliff July 1 because the state was ending a decades-long Medicaid waiver covering some of its costs to coincide with moving

Medicaid behavioral health care payments to the managed care model. House Bill 332 gives the program \$2.5 million to use this year, and lawmakers hope the program can be replicated across the state.

Getting their day in (administrative) court: Hearings resume this month for medical marijuana cultivation applicants who appealed the state's licensing decisions, [Borchardt reports](#). The Department of Commerce put the hearings on hold in February after it discovered a scoring error and hired Ernst & Young to make sure scores for all 185 applicants checked out. The agency released Ernst & Young's initial report validating those scores on Thursday.

Your brain on drugs: The White House has a new anti-opioid ad campaign designed for shock value. It features the true stories of young people, including one from Ohio, who go to desperate lengths ^{¶ 3} including breaking their own bones – to get the addictive painkillers. [Cleveland.com's Sabrina Eaton has the details](#) and video of the commercials.

Get out of my way: U.S. Rep. Dave Joyce has introduced a bipartisan bill that would keep the federal government from interfering with states like Ohio that have legalized marijuana, [Eaton reports](#). "We should trust the people of the states, like Ohio, who have voted to implement responsible common-sense regulations and requirements for the use, production, and sale of cannabis," said a statement from Joyce. "If the people of these states have decided to provide help for those veterans and others suffering from pain and other health issues, we should allow them access without government interference."

Uncle Joe supporting Sherrod: Former Vice President Joe Biden will headline a fundraiser for U.S. Sen. Sherrod Brown in Cleveland later this month, [reports cleveland.com's Andrew Tobias](#). The appearance suggests Biden, a possible 2020 contender, is keeping his contacts fresh with Ohio Democrats. Brown is running for re-election against Republican U.S. Rep. Jim Renacci.

Kasich in Foreign Affairs: Ohio Gov. John Kasich laid out his case for a more open and globally engaged America in a [lengthy piece that published](#)

in Foreign Affairs on Thursday. The essay, which touches on things like international trade, immigration and diplomacy with China, is the latest expression of Kasich's ongoing "Two Paths" mantra rebuking President Donald Trump.

Luck of the draw: Year-over-year revenues at gambling facilities in the Cleveland area in May were down 5 percent, while elsewhere across Ohio they were flat, writes cleveland.com's Rich Exner. An executive for JACK Casino in Cleveland said the drop is "100 percent attributable" to slightly luckier outcomes for players at the casino's table games.

Federal judges nominated: President Donald Trump on Thursday nominated two young attorneys to federal judicial spots on the 6th U.S. Circuit Court of Appeals in Cincinnati, Heisig writes. They are Eric Murphy, 39, and Chad Readler, 45. Murphy is the state solicitor under Attorney General Mike DeWine. Readler is a the principal deputy assistant attorney general in the Justice Department's civil division, and previously was chairman of the board for the Ohio Alliance for Public Charter Schools. Sen. Sherrod Brown said he would not support the nominees because he's not convinced they will support the rights of Ohioans, Heisig reports.

On the outs: "Ohio House Democrats took the highly unusual step Thursday of voting to kick Rep. Bernadine Kennedy Kent out of their caucus — and one or more of them are considering taking legal action against her," writes Jim Siegel of the Columbus Dispatch. Kennedy Kent, of Columbus, drew the ire of her colleagues when she wrote a letter to city officials using the signatures of members of the Ohio Legislative Black Caucus without their permission, Siegel reports.

Full Disclosure

Five things we learned from Springfield Republican Rep. Kyle Koehler's April 9 financial disclosure statement.

1. Koehler's first name actually is Jerome.
2. He reported earning \$100,000 or more in 2017 as vice president of

design at K.K. Tool Co. He earned \$65,476 last year as a representative, according to the Ohio Treasurer's office.

3. He received \$113.76 in gifts or meals from lobbyists last year, including a \$51.74 unspecified gift from the Ohio Quarter Horse Association and attended Alvis Inc.'s 180 Degree Impact Luncheon, worth \$50.
4. The Ohio House Republican Organizational Committee paid \$2,371.20 for Koehler's travel.
5. At some point in 2017 he owed at least \$1,000 to Ally on a car loan, MBNA on a car loan and an MBNA credit card.

"The problem with this approach is, I think you're seeing an escalation that may result in both higher tariffs -- which is bad for our exporters, our farmers, our service providers, our factory workers -- but also bad for our consumers because you're going to see tariffs or taxes going up on both sides. ☺ 0

- Republican Ohio U.S. Sen. Rob Portman on CNN discussing the White House's approach in negotiating the North American Free Trade Agreement with Canada at a time when President Donald Trump has announced tariffs.

OHIO HOUSE ELECTS NEW SPEAKER – *The Ohio House of Representatives elected Rep. Ryan Smith (R-Gallipolis) to serve as its new speaker on Wednesday. Rep. Smith had been serving as chair of the House Finance Committee, a role which will now be filled by Rep. Scott Ryan (R-Newark). After the upcoming November elections, the GOP caucus, assuming it retains its majority, will vote again to select a speaker for the next two-year session.*

Ohio House Votes 11 Times before Picking Ryan Smith as Speaker –
Columbus Dispatch

- Nothing about the Ohio House has been pretty over the past eight weeks, so few people were surprised Wednesday when it took an unprecedented 11 rounds of voting to elect Rep. Ryan Smith as the new speaker, temporarily easing a bitter internal GOP fight

BUILDING A GRAD NATION REPORT – *Civic Enterprises and the Everyone Graduates Center at Johns Hopkins University, in partnership with the Alliance for Excellent Education and America's Promise Alliance, released their annual Building a Grad Nation report. The report found the nation continues to see steady growth in high school graduation rates, reaching an all-time high of 84 percent. However, it remains off pace to reach the campaign's 90 percent goal. This*

year's report also found that even while the graduation rate is increasing, the number of schools with low graduation rates also is increasing. The report noted Ohio as one of 12 states having a graduation rate between 80 and 85 percent and gaining little ground over the past six years.

2018 Building a Grad Nation: Progress and Challenge in Raising High School Graduation Rates – Civic Enterprises/Everyone Graduates Center at Johns Hopkins University/Alliance for Excellent Education/America's Promise Alliance

- The nation continues to see steady growth in high school graduation rates, but it remains off pace to reaching the 90 percent goal—a goal that would require graduating about 219,000 more young people on time than graduated in 2016 and nearly doubling the annual rate of gain in recent years through 2020
- Ohio is one of 12 states to have a graduation rate between 80 and 85. However, the report notes the state has gained little ground over the past six years

There Are Now More High Schools with Low Graduation Rates. Why? – EdWeek

- Even as the nation's high school graduation rate reaches an all-time high of 84 percent, a troubling phenomenon is taking shape: The number of schools with low graduation rates is actually growing. The change is reported in the latest version of "Building a Grad Nation," an annual report that tracks high school graduation. Between 2015 and 2016, the number of schools defined by federal law as low-graduation-rate—schools of 100 or more students where fewer than two-thirds earn diplomas in four years—rose from 2,249 to 2,425

Dropout Prevention & Re-Engaging Youth

There Are Now More High Schools with Low Graduation Rates. Why? – EdWeek

- Even as the nation's high school graduation rate reaches an all-time high of 84 percent, a troubling phenomenon is taking shape: The number of schools with low graduation rates is actually growing. The change is reported in the latest version of "Building a Grad Nation," an annual report that tracks high school graduation. Between 2015 and 2016, the number of schools defined by federal law as low-graduation-rate—schools of 100 or more students where fewer than two-thirds earn diplomas in four years—rose from 2,249 to 2,425

2018 Building a Grad Nation: Progress and Challenge in Raising High School Graduation Rates – Civic Enterprises/Everyone Graduates Center at Johns Hopkins University/Alliance for Excellent Education/America's Promise Alliance

- The nation continues to see steady growth in high school graduation rates, but it remains off pace to reaching the 90 percent goal—a goal that would require graduating about 219,000 more young people on time than graduated in 2016 and nearly doubling the annual rate of gain in recent years through 2020

English Learners

How Have States Set Goals for English Learners in ESSA Plans? – Achieve/UnidosUS

- This brief, a collaboration between Achieve and UnidosUS, provides a two-part analysis of states' goals for English learners (ELs) in ESSA plans. First, it examines states' academic achievement goals for English language arts (ELA) and mathematics for ELs, and how those relate to the rigor of targets states are setting for other student groups. Next, it presents an analysis of the EL proficiency goals proposed in ESSA plans, and provides a closer look at how states are proposing to assess strides in English language proficiency for ELs

How Are States Including English Language Proficiency in ESSA Plans? – Achieve/UnidosUS

- The Every Student Succeeds Act (ESSA) has ushered in an era of renewed focus on English learners (ELs) in states' accountability systems. Under ESSA, states are now required to develop an English language proficiency (ELP) indicator that must be included in the statewide accountability system and must apply to all schools and districts. This brief, a collaboration between Achieve and UnidosUS, examines how states are including the ELP indicator in their statewide accountability systems

Using Data to Decode English-Learner Education – EdWeek

- The Migration Policy Institute's "A Guide to Finding and Understanding English Learner Data" explores what type of data that school systems, states, and the federal government collect on English-learners and how the information is used—and how it shouldn't be used

A Guide to Finding and Understanding English Learner Data – Migration Policy Institute

- With more data available online, deciding where to begin can be daunting. And without an understanding of how data are collected, analyzed, and reported, data users run the risk of coming to incorrect conclusions about

what they mean. This guide aims to help parents, practitioners, policymakers, advocates, and other interested members of the public understand how to access and use data about ELs—be it student outcome data or information about the school context

Subject: Amendment

Chairman Brenner,

As we discussed by phone this morning, LSC has drafted amendment language and you indicated that SB 216 would be the appropriate legislative vehicle for the amendment. You mentioned the following timetable: The House Education Committee would pass SB 216 on June 19 or 20, and the House would vote on the bill on June 27. Obviously we know these dates are subject to change.

The following is a quick overview of our issue for any conversation you might have with ODE, your colleagues, etc.

Charter School Specialists (CSS) is a sponsor representative for one of the largest sponsors in Ohio that sponsors conversion and new start-up community schools.

CSS works with St. Aloysius orphanage, an Ohio non-profit and community school sponsor that operates a large number of Ohio community schools.

In early 2017, CSS sought ODE's legal guidance as to the propriety of a federal non-profit organization taking over the sponsorship of a City School District conversion school.

Todd Marti, the Assistant Attorney General assigned to the ODE, advised CSS that the ODE's position is that the Community School sections of the ORC permit conversion schools to "switch" from a Non-District or Non-ESC sponsor.

Marti also opined that once a school is constituted as a conversion school the school's legal structure continues to be that of a conversion type, throughout the operational life of the school.

ORC Section 3314.02(A)(5) defines a "new start-up school" as " a community school other than one created by converting all or part of an existing public school or educational service center building, as designated in the school's contract ..." ORC Section 3314.03(A)(17) states that a contract between a sponsor and the community school governing authority must state "Whether the school is to be created by converting all or part of an existing public school or educational service center building [i.e., a conversion school} or is to be a new start-up school . . ."

A plain language reading of the statutes excerpted above provides that any community school that started as a conversion school, that is, as a school formed by converting all or part of an existing public school or ESC building, is henceforth a "conversion" type school because it originated in that fashion. To that point, the conversion school's contractual building, assets, liabilities, and curriculum/programs continue in the same manner despite changing the type of sponsor.

In effect, the March 2017 legal opinion reflects the statutory intent that a community school's contractual partner may change but the underlying school legal structure remains the same.

Contract law principles apply in the community school context. Thus, the parties have the contractual freedom to sustain the current contractual structure, just as they have the right to enter into a new start-up contract model.

And consistent with the March 2017 legal opinion, a change in a community school's contractual partner has no impact on the school's underlying legal and organizational structure. Continuity of the school's underlying legal and organizational structure is supported because (i) the community school continues to operate as an Ohio non-profit corporation; and (ii) the community school continues to qualify as a tax exempt entity under the IRS and does not have to re-apply to the IRS for tax-exempt status. The school district would simply assign its interest to St. Aloysius.

Diane Lease of ODE has a different view, and her letter is attached.

At the request of Chairman Brenner, the Legislative Services Commission drafted legislative language that affirms the March 2017 ODE legal opinion acknowledging that ORC Chapter 3314 permits an Ohio non-profit organization to assume sponsorship of a pre-existing conversion community school.

Here is the actual amendment language:

Subject to section 3314.034 of the Revised Code, a conversion community school that is open for operation may change sponsors to any entity listed in division(C) of section 3314.02 of the Revised Code. Any conversion school that changes sponsors under this section shall remain a conversion community school unless the school district in which the school is located is a challenged school district. If the school is located in a challenged school district, upon transfer of sponsors, the school shall be considered a new start-up community school. Any conversion community school that changes sponsorship under this section shall remain subject to all legal requirements that applied to the school before the change of sponsor, including leases and collective bargaining agreements.

RE: St. Aloysius Orphanage – Conversion Community School Sponsorship

Dear Mr. Mentel:

In your April 25, 2018 letter, you requested the Department's position as to whether a nonprofit organization may, under Ohio law, assume sponsorship of a conversion community school. You indicated in your letter that you represent Charter Schools Specialists, a representative for St. Aloysius Orphanage ("St. Aloysius"). You indicated further that St. Aloysius wants to assume sponsorship of a conversion community school from the board of education of a school district without any supporting documentation being provided to the Department. As a result, it is unclear whether this is Charter Schools Specialists' request or St. Aloysius Orphanage's.

Conversion community schools are established under the process set forth in R.C. 3314.02(B). Under R.C. 3314.02(B)(1), any person or group of individuals may propose the conversion by submitting a proposal to the board of education of the school district in which the public school is proposed to be converted. Under R.C. 3314.02(B)(3), the board of education enters agreements with the persons or groups proposing the conversion community school. R.C. 3314.02(D) specifies that: "A majority of the board of a *sponsoring entity* and a majority vote of the members of the governing authority of a community school shall be required to adopt a contract and convert the public school . . . to a community school . . ." (emphasis added). Regarding a conversion community school, a "sponsor" is defined under R.C. 3314.02(A) as "the *board of education of a school district* or the governing board of an educational service center that agrees to the conversion of all or part of a school or building under division (B) of this section . . ." (emphasis added).

These provisions specify that a sponsor of a conversion community school is either a board of education of a school district or a governing board of an educational service center. There is no express provision in R.C. 3314.02 that permits an entity other than a board of education or a governing board of an educational service center to serve as a sponsor.

In contrast, R.C. 3314.02(C) establishes the process for a new start-up community school. R.C. 3314.02(C)(1) limits the establishment of a new start-up community school to a location in a challenged school district, which is defined in R.C. 3314.02(A)(3). Certain qualified nonprofit tax-

Re: St. Aloysius Orphanage – Conversion Community School Sponsorship

exempt entities, among others, may propose a new start-up community school under R.C. 3314.02(C)(1). Such entities are not included under the process in R.C. 3314.02(B) for establishing a conversion community school.

The bifurcated structure of R.C. 3314.02 demonstrates a policy of the General Assembly to treat conversion community schools and new start-up community schools differently. We have found no authority that would allow a conversion community school to be transformed and treated as a new start-up school that would be in a school district other than a challenged school district. Without further legal authority to indicate otherwise, the Department's position is that a nonprofit organization may not assume sponsorship of a conversion community school from the board of education of a school district.

While we are aware of one situation involving a conversion community school in Reynoldsburg in which such an arrangement was permitted, the situation was unique, limited, and subject to the terms of a settlement agreement. This letter confirms the Department's position on this issue.

STATE BOARD OF EDUCATION APPROVES STRATEGIC

PLAN – *At its June meeting, the State Board of Education approved its strategic plan, EachChild=OurFuture, laying out a framework for the state's educational goals, strategies and guiding principles. The plan= 2s vision is that EachChild graduates from high school, and each graduate is prepared with the knowledge, skills and disposition to pursue his or her chosen post-high school path and become a lifelong learner who is an engaged, culturally aware and contributing member of society. The overarching goal is to annually increase the percentage of Ohio= 2s high school graduates who, within one year of graduation, are: 1) Enrolled and succeeding in a post-high school learning experience, including an adult career-technical education program, an apprenticeship and/or a two-year or four-year college program (15 semester hours); or 2) Serving in a military branch; or 3) Earning a living wage.*

Addressing the Gap Between Education Research and Practice – Center for American Progress

- This issue brief attempts to address the research-practice gap in the education space. First, it describes some challenges in applying research to educational practice. It then outlines research-practice partnerships (RPPs)—mutually beneficial collaborations between research scientists and education leaders that can narrow the gap between research and practice. Finally, the brief proposes the creation of state-level education capacity centers, which would help leaders in state and local education departments use research to inform practice
